

PATH Newsletter

2/25/2016

Greetings Pastors,

I am sitting in my office looking out my window and watching the snow fall here in Ohio. In one way it is very beautiful and in another way it is very cold. Same picture but very different elements. As I think about the church there is much beauty to be seen, and yet many cold also make up the church.

Many are waiting for the church to get hot again, while others are stoking the fires of revival in their own heart and changing this problem. They have moved from waiting for a move of God to being a move of God. PATH NETWORK is a group of sold out leaders that make a difference through their faith in God and their intimate walk with Him.

I am not waiting for change, through Christ I am change. I am not waiting for restoration, through Christ I am restoration. We are not waiting on God; He is waiting on us to be His instrument of redemption.

Your area of the world has hope because you reside there, and because Christ can also be their hope of glory. Be encouraged as the God of hope fills you with everything you need as you live and move and have your being in Him.

God Bless you,
Revivalist Wes Geiger
